WebGrowth — *React website*

<https://webgrowth.in>

- Created this website using ReactJs and Bootstrap. Webgrowth is an IT company which provides digital marketing services.

TextUtils — *React website*

- TextUtils is a demo react application I developed while I was learning ReactJs. It provides one textbox to enter our text and it will do some operations on entered texts like count the total number of words and characters we entered ,convert it to uppercase, lowercase, capital first letter, removes extra spaces, copy texts etc. We have to click on that Button which operation we want to perform. It also contains Dark mode functionality

NewsOutlet — *React website*

- NewsOutlet is React application which provides daily updated news. It is a news app which can be used to grab quick news bites. It provides news of different categories like whether, politics , sports , entertainment , business, health, science

and sports etc.

iNotebook— *React Web Application*

- I developed this website in React Js using Bootstrap while I was learning React. I created APIs in Node Js using Express server. iNotebook is an online web platform where you can create, edit, upload, delete your notes/information privately and securely without any disturbance. online web platform where you can create, edit, upload, delete your notes/information privately and securely without any disturbance.

ACADEMIC PROJECTS AND EXTRA ACTIVITIES

- ★ Attended remote certification workshop of React Js from Skill slash.
- ★ Attended remote certification workshop of JavaScript from Skill slash.

Apartment Management System — *Android Application*

- Developed Android Application to provide facilities for apartments and complexes like Parking System, Rent/Sell Flats, Member Complaint Management, Event Celebration and Fund & Maintenance Management.

Student Management System — *PHP*

- Developed a platform to manage students of an institute or school using the admin panel in PHP.
